

GUADALUPE

Handprint Paper Towel Tube Advent Wreath

Advent wreath out of her handprints. The candles are paper towel tubes cut into thirds and then wrapped in colored construction paper. We use yellow tissue paper to “light” the candles.

Trace your hands onto the green paper and then cut them all out. Glue handprints onto a paper plate that the center has been cut out.

Put the yellow tissue paper into the first candle for the first week of Advent.

A simple Advent Wreath..
Supply list, 3 purple candles 1 pink, greenery .
Optional: Ribbon, berries
